Off-site Clinical Rotations

- Nursing Home (6 weeks)
- Christus Health (6 weeks)

The SGAHS Health Science P-Tech program is designed for students interested in a career in the healthcare industry. Our program provides students the opportunity to receive hands-on experience in the healthcare field through partnerships with Del Mar College and Christus Health Hospital.

P-Tech is for students in grades 9-12 who want to get a head start in a career where skilled employees are in high demand. It is a four year, career focused program providing students with real-world work experience through internships in fields connected to their classroom studies. We partner with Texas Institutions of higher education and local businesses and industry, giving students access to post-secondary education and workforce training opportunities.

TODAY'S DECISIONS CREATE TOMORROWS SUCCESS

- A high school diploma
- A Career and Technical Education Endorsement
 - Relevant Industry Certifications
 - Practical workplace experience
